

OUR VISION, OUR VOICE

Our Vision, Our Voice is a free program for teen girls enrolled in the Rochester City School District who are interested in learning current technology and software to create and publish their own zine.

In this program, teen girls (ages 13-17) will each produce their very own risograph zine from concept and content creation to final design and layout. *Our Vision, Our Voice* gives young women the opportunity to learn new skills as well as empowers them to share their experiences and dreams with their community. Content for their zine may include personal poems and stories; interviews with neighbors, teachers, and friends; photographs captured in both a professional lighting studio as well as out in the community; and participants' drawings and digital art.

This program is FREE to participants. Flower City Arts Center will provide the teachers, equipment, facilities, software, and all other materials needed to create a fully self-published zine. All of the teachers and volunteers for this program are women in an arts, design, or journalism field; these women will provide mentorship and serve as positive role models during these influential years of their students' lives.

For more information, please call the Photography & Digital Arts office at 585-271-5920.
